

USE OF CELL PHONES AND ELECTRONIC DEVICES IN SCHOOLS

Background

Inappropriate use of cell phones, camera cell phones and other electronic devices can interfere with an individual's right to privacy, the student's right to a safe and caring environment and the teaching and learning process; therefore, the Superintendent requires Principals, in consultation with appropriate stakeholders, to formulate and implement appropriate procedures at the school site.

Procedures

1. The school procedures must take into consideration the student population at the school.
2. The procedures must have clear expectations and consequences regarding inappropriate use.
3. The procedures must be published appropriately so that all stakeholders are aware.
